2015–2020

Bachelor's and Master's degree, Economics and Management

University of Latvia | Faculty of Business, Management and Economy

2018–2019

Business administration and Management

About Me

Being a business and entrepreneurship enthusiast, I believe in the power of data, which is why I've developed my career path around it. I have studied business management and then worked for international companies, specifically to apply data insights to meet financial questions. I am continuously improving expertise in data management, currently as Data management specialist at ETL team for Luxair airlines in Luxembourg. Outside of work, I am triathlete and sea skipper.
